

A Marmon Group/Berkshire Hathaway Company

Replacement Part Policy

If a TENN-TEX Plastics Inc. part becomes defective, please contact the original cabinet/furniture manufacturer for replacement.

Due to the many changes and customizations made to plastic parts that are used in cabinets/furniture, many parts may look the same, but are different sizes, have different dimensions, different dowel sizes, or other differences. So, the end user should work with the manufacturer of the cabinets/furniture to insure a correct replacement part.
